PELVIS (SACRUM, COCCYX)

PE-17

Structure of the female pelvic Bones, natural size, key card included.

This model shows the two upper parts of the ilium, sacrum with coccyx, two lumbar vertebrae and the symphysis .

Mounted on stand with base.

Dimensions: 30 x 30 x 20 cm. Sh. wt. 0.90 Kgs.

PE-27

Bony structure of the female pelvis with movable femur head, natural size.

Includes all features of model PE-17, (not illustrated)

Dimensions: 30 x 30 x 20 cm. Sh. wt. 1.30 Kgs.

PE-19

Bony structure of the female pelvis, flexible, natural size.

Shows demonstration of various types of abnormal pelvises (e.g. flat, irregular, contracted, as well as deformities that can take place during labor.

Dimensions: 30 x 30 x 20 cm. Sh. wt. 1.40 Kgs.

PM-27

Bony structure of the male pelvis, natural size.

This model shows both upper parts of the ilium, sacrum with coccyx, two lumbar vertebrae and the symphysis.

Dimensions: 30 x 30 x 20 cm. Sh. wt. 0.90 Kgs.

PM-37

Bony structure of the male pelvis, with movable femur head, natural size.

Includes all features of model PM-27 (not illustrated).

Dimensions: 30 x 30 x 20 cm. Sh. wt. 1.30 Kgs.

PE-47

Bony structure of the female pelvis ligaments, natural size, key card included.

Model pelvis ligaments which hold the bones of the pelvis girdle together.

Dimensions: 30 x 30 x 20 cm. Sh. wt. 1.30 Kgs.

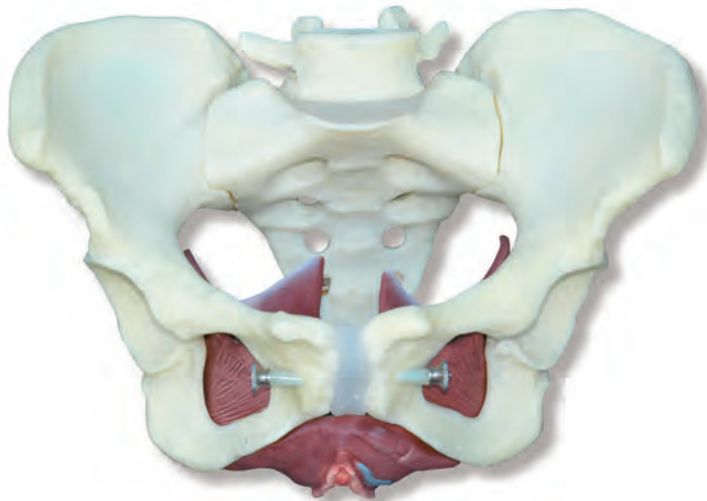

PELVIS (SACRUM, COCCYX)

PE-67
Bony structure of the female pelvis ligaments with nerves, natural size, key card included
 All other feature like PE-47 but with the addition of the main nerves.
 Parts not removable
 Dimensions: 30 x 30 x 20 cm. Sh. wt. 1.30 Kgs.

PE-57
Bony structure of the female pelvis with ligaments, nerves and floor muscles, 2 parts, natural size, key card included.
 Showing the ligaments and the main nerves, with a removable 2 part pelvic floor:
 Dimensions: 30 x 30 x 20 cm. Sh. wt. 1.50 Kgs.

PE-37
Bony structure of the female pelvis floor, 5 parts, natural size, key card included.
 Model with a highly detailed and removable pelvis floor in carefully colored flexible material, comprising of genitalia and associated muscles.
 Dimensions: 30 x 30 x 20 cm. Sh. wt. 1.20 Kgs.

PM-47
Bony structure of the male pelvis floor, natural size.
 Model pelvis (sacrum and coccyx) the internal and external genitalia, bladder and rectum. (not illustrated)
 Dimensions: 30 x 30 x 20 cm. Sh. wt. 1.40 Kgs.

PN-77
Bony structure of de Juvenile female natural size, 4 parts,
 Model pelvis (sacrum and coccyx), mouldes from a female of about 12 years old.
 Dimensions: 20 x 20 x 15 cm. Sh. wt. 0.70 Kgs.
