AIRWAY MANAGEMENT

CHOKING MANIKINS

Choking emergencies are not selective when it comes to age groups, so we offer three generations of choker training models to choose from, including the latest addition, the Infant Choking Manikin. These lightweight manikins all function on the same principle - clearing a blocked airway. Each manikin comes with two objects that will lodge in the oral pharyngeal space, representing any object stuck in the air passages of a victim. Once the object is lodged, the student must use the anatomical landmarks to decide where to place their hands and how much pressure is required to accomplish the maneuver. Whether it is a 9-month-old baby, child, adolescent, adult, or oversized adult, these trainers give you immediate visual feedback when the procedures are done correctly. Manikins include rib cage, xiphoid process, and suprasternal notch to provide anatomical reference. Each manikin comes with two choking objects, shirt, and soft carry bag.

MAH-00
Infant choking manikin with carry bag.

Dimensions: 66 x 21 x 21 cm.
Sh. Wt. 3,20 Kgs.

MAH-15
Adult Choking Manikin with Carry Bag.

Dimensions: 79 x 46 x 25 cm.
Sh. wt. 7.26 kgs.

MAH-10
Adolescent Choking Manikin with Carry Bag.

Dimensions: 61 x 36 x 23 cm.
Sh. wt. 5.08 kgs.

MAH-05
Child Choking Manikin with Carry Bag.

Dimensions: 43 x 25 x 18 cm.
Sh. wt. 2.26 kgs.

MAH-20
Obese Adult Choking Manikin with Carry Bag.

Dimensions: 76 x 53 x 33 cm.
Sh. wt. 10.43 kgs.

TIA-20
Adult Airway Management Trainer.

For Airway Management procedures. Anatomical landmarks include the sternum, rib cage, and substernal notch. The trainer also contains teeth, uvula, vocal cords, glottis, epiglottis, larynx, arytenoid cartilage, trachea, esophagus, and inflatable lungs and stomach. Allows nasogastric tube placement. Accepts Combitube, E.O.A., E.G.T.A., and P.T.L. airways. Bag-valve mask ventilation. Comes with soft carrying bag.
Dimensions: 69 x 43 x 25 cm.
Sh. wt. 9.98 kgs.

ERI-20
"Airway Larry" Airway Management Trainer Manikin.

The famous "Airway Larry" Adult Airway Management Trainer mounted on a CPARLENE Basic Torso. CPR and airway management procedures may be performed. Comes with pump spray lubricant, disposable lower airway for the manikin, and a cardboard case.
Sh. wt. 14.96 kgs.

- Replacement Lung Set 0421072
- Replacement Stomach 0421073
- Pump Spray Lubricant 0421074
- Hard Carrying Case 0421125

AIRWAY MANAGEMENT

EVR-30 Adult Airway Management Trainer.

Detailed anatomy featured on the adult intubation trainer stands out. Get a clear picture of human anatomy from the sculpted alveolar sac, bronchial tree, and blood vessel structures of the cross-sectioned and exposed flexible lungs, to the interior main bronchus and oral/nasal pharyngeal spaces. Combine these details with an airway complicated by breakout teeth, tongue edema, and laryngospasm, and this airway trainer rates hard. An anatomical stomach that swells with esophageal intubation, or excessive pressure with the BVM during rescue breathing, together with the vomiting capability of this manikin makes this an exceptional educational tool for multitasking. Includes instructions for use, soft carry bag, lubricant, and replaceable lungs and stomach. Dimensions: 81 x 31 x 61 cm. Sh. wt. 20.29 kgs.

IAD-03 Adult Airway Management Trainer

This Airway Management Trainer simulates nonanesthetized patients for practicing intubation, ventilation, suction, and CPR techniques. Realistic anatomy and landmarks including teeth, tongue, oral and nasal pharynx, larynx, epiglottis, arytenoids, false cords, true vocal cords, trachea, lungs, esophagus, and stomach. The trainers allow you to practice oral, digital, and nasal intubation, as well as E.T., E.O.A., P.T.L., and Combitube insertion. Suction techniques and proper cuff inflation may also be practiced and evaluated. Features durable, rugged, one-piece construction and bifurcated lungs. Three-year warranty. The Adult Airway Management Trainer Head represents a small adult making it ideal for practicing more difficult approaches and for training purposes. Comes with pump spray lubricant. Dimensions: 31 x 28 x 23 cm. Sh. wt. 3.62 kgs.

EVR-40 "Airway Larry" Adult Airway Management Trainer Head.

This Airway Management Trainer simulates nonanesthetized patients for practicing intubation, ventilation, suction, and CPR techniques. Realistic anatomy and landmarks including teeth, tongue, oral and nasal pharynx, larynx, epiglottis, arytenoids, false cords, true vocal cords, trachea, lungs, esophagus, and stomach. The trainers allow you to practice oral, digital, and nasal intubation, as well as E.T., E.O.A., P.T.L., L.M.A., E.G.T.A., and Combitube insertion. Suction techniques and proper cuff inflation may also be practiced and evaluated. Features durable, rugged, one-piece construction and bifurcated lungs. With its slightly anterior position, Airway Larry is a great trainer for introductory as well as advanced students. It is ideal for testing purposes and Combitube practice. Applying pressure to the cricoid cartilage changes the position of the trachea and closes the esophagus, allowing realistic practice of the Sellick maneuver. Dimensions: 31 x 28 x 23 cm. Sh. wt. 2.83 kgs.

EVR-50 Airway Larry Adult Airway Management Trainer Head With Stand.

Same as model EVR-40. Mounted a sturdy stand. Sh. wt. 15.02 kgs. Dimensions: 63 x 30 x 4 cm.

- Replacement Lungs (One set) 0421072
- Replacement Stomach 0421073

IAD-13 Adult Airway Management Trainer With Stand

Same as model IAI-03. Mounted a sturdy stand. Dimensions: 64 x 41 x 31 cm. Sh. wt. 14.96 kgs.

- Replacement Lungs 0421072
- Replacement Stomach 0421073

AIRWAY MANAGEMENT

ERI-10

Advanced "Airway Larry" Trainer.

Mounted on a CPARLENE basic torso allows both CPR and airway management procedures to be practiced. Includes pump spray lubricant, and disposable lower airway for the manikin.

Sh. wt. 15.98 kgs.

EVR-80

Advanced "Airway Larry" Trainer head with stand.

Same as model EVR-20. Mounted a sturdy stand.

Mounted on a sturdy stand. Includes pump spray lubricant and hard carrying case.

Sh. wt. 16.10 kgs.

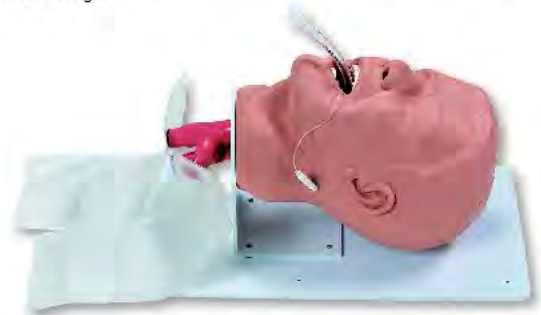

EVR-20

Advanced "Airway Larry" Trainer head.

Can be attached to either the CPARLENE, nonmodular Resusci Anne brand CPR manikins or Adult Crisis Manikins. Comes with pump spray lubricant.

Sh. wt. 3.23 kgs.

EVR-10

Economy Adult Airway Management Trainer.

This detailed adult intubation head comes mounted for clinical teaching and practice of advanced airway management. Intubation procedures and skills, including anatomy knowledge and recognition, endotracheal intubation, nasotracheal intubation, use of field emergency airway adjunct tubes like LMAs and Combitube, securing, suctioning, and maintenance of the installation can all be practiced with this unit. A soft carry bag, lubricant, and instructions for use are included.

Dimensions: 53 x 23 x 25 cm.

Sh. wt. 4.59 kgs.

Model EVR-100

Airway Management Trainer.

For practicing a variety of intubation, ventilation and suction techniques.

- Tracheal pharyngeal and esophageal intubation, oral or nasal.
- Realistic use of Laryngeal Mask Airway and Combitube.
- Realistic anatomical features allow demonstration of Sellick Maneuver and Laryngospasm.
- Practical training in clearing and obstructed airway.
- Provides visual inspection of lung expansion and auscultation of breath sounds.
- Simulates stomach inflation and vomiting situation.

Includes: Manikin on Sturdy Board, Airway Demonstration Model, Cleaning Kit, Lubricant, Carry Case, and Directions for use.

CIN-03

Infant Airway Head With Stand.

Features realistic size and anatomy and is perfect for practicing airway management skills on an infant. Comes with a pump spray lubricant.

Dimensions: 56 x 38 x 25 cm.

Sh. wt. 9.07 kgs.

AIRWAY MANAGEMENT

BP-100 Multipurpose Patient Care and CPR Pediatric Simulator - One-Year Old Manikin.

A realistic simulator for student practice of pediatric patient care techniques. Features: articulating head, jaw, arms, and legs; eye irrigation; oral, nasal, and digital intubation; place OP/NP tubes; right/left main stem bronchi; place nasal and oral gastric tubes; suctioning; BVM; chest compression/rise; lavage/gavage; G-tube placement; stomas for ileostomy, colostomy, and suprapubic exercises; intraosseous infusion; IV arm with variable, palpable pulses; male/female catheterization; and placement of rectal suppositories. Sh. wt. 7.66 kgs.

BP-105 Five-Year-Old Manikin.

Multipurpose patient care and CPR Simulator - Five Year Old Manikin. (not illustrated)
Sh. wt. 12.81 kgs.

CIN-05 Infant Airway Head.

Features realistic size and anatomy and is perfect for practicing airway management skills on an infant. Comes with a pump spray lubricant. Dimensions: 23 x 23 x 15 cm.
Sh. wt. 1.13 kgs.

MEV-64 Child CPR/Airway Management Torso

The CPR/Airway Management Torso is ideal for practicing intubation, ventilation, suctioning techniques, and CPR. This torso is designed to be the foundation of the Child CRiSis system as arms, legs, and a defibrillation chest skin can be added later to provide IV access, intraosseous infusions, blood pressure monitoring, and ECG recognition and defibrillation training. Comes with pump lubricant.

Dimensions: 77 x 42 x 28 cm.

Sh. wt. 9.36 kgs.

- Replacement Lungs Set 0421089
- Replacement Stomach 0421090
- Pump Spray Lubricant 0421074
- Hard Carrying Case 0421125

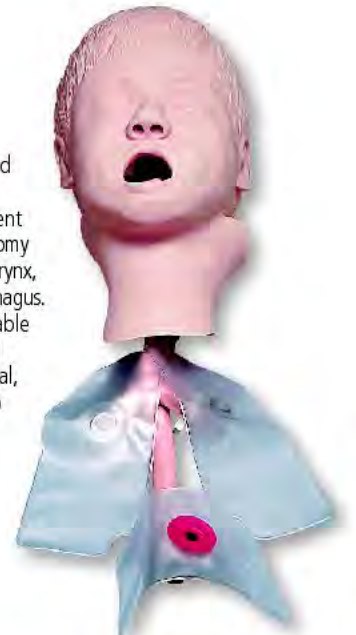

IAI-03 Child Airway Management Trainer.

A simulated head of an 8-year-old child featuring realistic size and anatomy. Perfect for practicing airway management skills on pediatric patients. Realistic anatomy includes mouth, tongue, oral pharynx, larynx, epiglottis, vocal cords, trachea, and esophagus. Separate lungs for auscultation. Inflatable stomach bladder indicates esophageal insufflation. Practice suctioning and oral, nasal, and intubation techniques. Pump lubricant included.

Dimensions: 36 x 36 x 18 cm.

Sh. wt. 3.62 kgs.

IAI-23 Child Airway Management Trainer With Stand

Same as model IAI-03. Mounted a sturdy stand.

Dimensions: 53 x 36 x 23 cm.

Sh. wt. 9.07 kgs.

- Replacement Lung Set 0421089
- Replacement Stomach 0421090
