BASIC LIFE SUPPORT

BASIC LIFE SUPPORT

CPR Manikins

Full positioning manikin provides instantaneous visual feedback in four practice modes: compression rate, compression depth, ventilation duration, and ventilation volume. Red light indicates improper hand placement. The performance of each skill is displayed separately while averages are stored in the memory. With the flip of a switch, the memory unit evaluates performance based on child or adult CPR standards. Printer test strip plots and tabulates test performance skills indicating good, high, and low results in either adult or child mode. Power saver feature automatically turns the unit off, but retains previous data. Also features a low-battery indicator. Complete with washable, long-sleeve jogging suit and durable storage/travel case with wheels.

CSM-96

Full Manikin with memory and Printer, Sanitary Head & Molded Hair.

Sh. wt. 29.93 kgs.

CSM-92

Full Manikin With Memory

Sh. wt. 29.48 kgs.

CSM-91

Full Manikin With Light Controller

Sh. wt. 28.20 kgs.

CSM-87

Basic Full Manikin

Sh. wt. 27.21 kgs.

MMI-50

Electronic Monitoring, Memory, and Printer Unit

For testing, simply push test start button and begin CPR sequence. Compression and ventilation waveforms are plotted in a time sequence. When stop button is pushed, averages of the four skills are shown on the digital display while the printer tabulates the result on paper. Includes four pens, three rolls of paper, and six "D" batteries.

Sh. wt. 3.62 kgs.

MMI-50

MMS-40

Electronic Monitoring and Memory Unit

Provides same visual feedback as MMI-50, but without printer component. Includes six "D" batteries. Sh. wt. 3.17 kgs.

CPR Torsos Manikins

The CPARLENE Torso is clothed in washable, short sleeve athletic jacket. The three-color light controller box indicates acceptable ventilation volume, compression depth, and improper hand placement. With the flip of a switch on the light box and the change of compression springs, child CPR can be practiced. Includes supplies and soft carrying case with wheels.

TSM-84

Torso With Electronic Light Controller, Sanitary Head and Molded Hair.

Sh. wt. 17.69 kgs.

TSM-93

Torso With Electronic Monitoring And Memory Unit

Sh. wt. 19.10 kgs.

TSM-98

Torso With Electronic Monitoring, Memory, And Printing Unit

Sh. wt. 19.50 kgs.

TSM-79

Torso Sanitary Head & Molded Hair. Conexion Electronic

Sh. wt. 17.00 kgs.

Replacement Parts Models CSM-TSM

Sanitary Face Masks

- Pkg. of 5 0421055
- Pkg. of 25 0421056
- CPR Valves. Use with Sanitary Face Mask. Pkg. of 25 0421058

Disposables

- Tracheal Airways. Pkg. of 10 0421057

- Soft Torso Case 0421126
- Hard Torso Case 0421125

MCO-30

Light Controller

Three-color light controller indicates acceptable levels. Red flashing light indicates improper hand placement, green flashing light indicates proper ventilation volume, and yellow flashing light indicates proper compression depth. Child CPR can be practiced by changing the compression springs and flipping the switch on the light controller. Includes four "D" batteries. Sh. wt. 1.81 kgs.

MCO-30

BASIC LIFE SUPPORT

CSM-59

SkillReporter Resusci Anne Full Body w/SkillReporter Unit & Hard Case

Allows instructors to do comprehensive BLS training for professional rescuers where the highest levels of competency are desired. The intuitive and compact SkillReporter module has a built-in printer for documenting student performance against standard CPR protocols.

It's possible to perform CPR without the SkillReporter connected to the manikin. Using the functions ON/OFF, and LOG, the information stays registered, later only connecting the SkillReporter the report can be obtained. Includes: SkillReporter with 1 Roll of printer Paper, 4 decorated Face Skins, 3 disposable Airways, Carrying Case, Track Suit, Directions for Use, and 50 Manikin Wipes.

Model TOS-90

Skillguide Resusci Anne Torso w/Soft Pack/Training Mat

Designed to deliver comprehensive BLS training for professional rescuers. Skillguide Performance Indicator provides immediate and objective feedback on key CPR elements.

- Realistic landmarks for compression point location.
- Natural obstruction of the airway.
- Sanitary one-way valve membrane and non-rebreathing valve.
- Carotid pulse, manual.
- Skillguide indicates inflation volume (sufficient/excessive), compression depth (sufficient/excessive), wrong hand position, too fast inflation.

Includes: Skillguide, 4 decorated Face Skins, 3 disposable Airways, Carrying Case, Jacket, Directions for Use, and 50 Manikin Wipes.

TEC-43

Economy Adult Sani-Manikin

This lifelike CPR manikin offers a realistic, affordable way to provide each student their own manikin. Designed with the instructor in mind. No cleaning... No disinfecting... No disassembly... Just pack and go!

Manikin features: realistic head tilt, single-use airway/lung/face shield system, simulated chest rise, palpable landmarks, and xiphoid process for reference in hand placement. The manikin is lightweight and rugged.

Sh. wt. 3.17 kgs

Dimensions: 51 x 38 x 20 cm.

TEC-44

Economy Adult Sani-Manikin (4 pk.)

Set of 4 Economy Adult Sani-Manikins in a convenient nylon carry bag. (not illustrated). Sh. wt. 12.70 kgs.

Replacement Parts:

- Adult Sani Manikin Lung/Airway Systems (Pkg.100). 0421108
- Sani Baby Manikin Lung/Airway Systems (Pkg.100). 0421098

Model FOF-03

Fat Old Fred Manikin

Students always wonder how CPR manikins will compare with real victims, especially those who are older or obese. This unique manikin helps to prepare students to respond to a more typical cardiac arrest event with a victim who is elderly and overweight. Features: elderly physical appearance, large body type with extra "fat" layer, realistic head tilt and chin lift for opening the airway, and palpable and visual anatomical landmarks, including the sternum, rib cage, and substernal notch. The airway can be manipulated to simulate airway obstruction or choking situations. Also includes three mouth/nose pieces, three disposable lung/airway systems, and a convenient carrying bag. Sh. wt. 9.07 kgs.

Replacement Parts:

- Lung/Airway Systems (Pkg. of 24). 0421238
- Mouth/Nose Pieces (Pkg. of 10). 0421239

BASIC LIFE SUPPORT

CPT-15
Full Body CPR Manikin

A rugged rescue/CPR manikin that replicates a wide range of real-life trauma conditions a rescuer may encounter. As a rescue manikin, it simulates the resiliency of a human body for realistic practice in transport rescue and lifesaving medical procedures. As a CPR manikin, it is used to demonstrate proper CPR technique. It offers lifelike anatomical landmarks (sternum, ribcage, and sternal notch) and natural resistance to chest compression. Its patented airway is designed to inflate the lungs only if the head is extended and accurately positioned. Each manikin comes with a total of five airways with lungs and non-rebreathing valves, five face pieces, and four airway plugs. Dimensions: 127 x 55 x 54 cm. Sh. wt. 27.21 kgs.

CPT-25
Full-Body With Electronics

Same as model CPT-15 but includes light controller, (not illustrated). Dimensions: 127 x 55 x 54 cm. Sh. wt. 23.58 kgs.

Replacement Parts

- Mouth/Nosepieces (Pkg. of 10) 0421110
- Lungs (Pkg. of 20) 0421117
- Full-Body Carry Bag 0421336

TEC-53
Brad Compact CPR Training Manikin

This economical CPR manikin is constructed of soft, realistic vinyl plastic over polyurethane foam for a "human" feel. Features include: a longer torso for realistic abdominal thrusts, realistic head tilt and chin lift for opening airway, can easily be manipulated to realistically simulate airway obstruction or choking situations, and a user-friendly lung/airway design that eliminates cleaning. Includes three mouth/nose pieces and three disposable lung/airway systems. Nylon carry bag and kneeling pads included. Dimensions: 71 x 46 x 25 cm. Sh. wt. 7.74 kgs.

TEC-61
Brad Compact CPR Training Manikin With Electronics

Same as model TEC-53 but includes light controller. Dimensions: 71 x 46 x 25 cm. Sh. wt. 8.50 kgs.

Replacement Parts Models TEC

- Airway System (24 pk.) 0421109
- Channel Design Mouth/Nosepiece (10 pk.) 0421110
- Carry Bag With Kneeling Pads 0421494

TEC-53JT

TEC-53JT
Jaw Thrust Brad CPR training manikin.

Emerging from our very successful Brad CPR manikin, comes the new jaw thrust Brad. This manikin offers all of the dependable characteristics that you've come to expect...durability, economy of purchase, ease of use, and simple function with the overall cost of teaching classes held to a minimum.

- Moveable jaw
 - Individual mouth piece
 - Removable chest plate for adolescent and adult CPR
 - One airway per day
 - Rugged cynil skin
 - Long-lasting foam filling
 - Replacement parts.
- Dimensions: 71 x 46 x 25 cm. Sh. wt.: 7.74 Kg.

TEC-61JT

TEC-61JT
Jaw Thrust Brad CPR training manikin With Electronics

Same features as model TEC-53JT, but with electronics included.

Dimensions: 71 x 46 x 25 cm. Sh. wt.: 8,5 Kg.

TOS-78
Adam CPR Training Manikin

Rugged and easy to use, this adult manikin gives instructors a highly effective asset to their programs and provide students with a thorough CPR training experience. Comes with 10 low-cost disposable airway systems and individual mouth/nose pieces, which can be sanitized for reuse. Lifelike, anatomical landmarks (carotid pulse, sternum, rib cage, and sub-sternal notch) and the realistic resistance to chest compression help students learn with accuracy and perfect their lifesaving skills. Lightweight and portable. Comes in a carrying tote bag with built-in kneeling pads.

Dimensions: 71 x 46 x 25 cm. Sh. wt. 9.98 kgs.

TOS-86
Adam CPR Training Manikin With Electronics and Carry Bag

Same as model TOS-78 but includes light controller, (not illustrated). Dimensions: 71 x 46 x 25 cm. Sh. wt. 11.34 kgs.

Replacement Parts Models TOS

- Lung/Airway System (Pkg. of 10) 0421111
- Lung/Airway System (Pkg. of 100) 0421108
- Mouth/Nosepieces (Pkg. of 10) 0421110
- Carry Bag 0421494
- Manikin Face Shields 0421200

Latex-free inexpensive Manikin Face Shields used to teach the use of biological barriers. Available in a 100 pack.

BASIC LIFE SUPPORT

CBB-05

Basic Buddy Single CPR Manikin

Offers a realistic and affordable way to provide each student with their own CPR manikin. The one-piece, disposable lung/mouth protection system makes this manikin completely sanitary - there is no risk of cross contamination and no need to sanitize the manikins after use! Rugged carrying bags make transporting the Basic Buddy 5-Pack and 10-Pack convenient (manikins fit into bags fully assembled).

Basic Buddy Features:

- Totally Sanitary, One-Piece Lung/Mouth Protection System
- Realistic Chest Rise
- Unique Airway System Opens & Closes with Proper Technique
- Rebreathing Airway
- Anatomically Correct w/Palpable Landmarks
- Adult and Child Capabilities

Basic Buddy Benefits:

- No Messy Clean-Up
- Economical - Each Student Can Have Their Own Manikin
- Disposable, One-Piece Lung/Mouth Protection System
- Lightweight & Portable
- Simple-to-Use
- Tough and Durable

Consists of 1 manikin, 10 lung/mouth protection bags, and an instruction manual.

Sh. wt. 2.18 kgs.

Dimensions: 64 x 48 x 18 cm.

CBB-10

Basic Buddy 5-Pack

Consists of 5 infant manikins, 50 lung/mouth protection bags, carrying bag, and an instruction manual.

Sh. wt. 13.15 kgs.

CBB-15

Basic Buddy 10-Pack

Consists of 10 infant manikins, 100 lung/mouth protection bags, two carrying bags, and two instruction manual, (not illustrated).

Sh. wt. 18.14 kgs.

Replacement Parts Models CBB

- Lung Bags (Pkg. of 100) 0421053
- Carry Bag Holds five fully assembled. 0421054

THB-20

Brad Jr. CPR Manikin

The Brad Jr. manikin features a realistic appearance, accurate anatomical landmarks, and individual-use mouth/nosepieces with disposable airway/lung system and non-rebreathing valve. Durable and easy to use. Approximate age is 7 years. Comes with convenient nylon carry bag.

Sh. wt. 5.55 kgs.

Dimensions: 69 x 43 x 25 cm.

THB-61

Brad Jr. CPR Manikin With Electr

Same features as model THB-20, but with electronics included.

Sh. wt. 6.30 kgs.

Dimensions: 69 x 43 x 25 cm.

Replacement Parts Models THB

- Airway System With Lungs (Pkg. of 24) 0421358
- Mouth/Nosepieces (Pkg. of 10) 0421114

THB-61

RJC-10

Resusci Junior with Skillguide

This lifelike CPR training manikin is specially designed for child resuscitation and rescue techniques.

- Naturally occluded airway can be opened with head tilt/chin lift with obstructed airway.
- Carotid pulse simulation.

The Skillguide CPR Performance Indicator provides immediate feedback on ventilation duration and volume, compression depth, and finger placement. Includes: A hard plastic Carry Case, Training Mat, Skillguide Unit, Track Suit, 4 Junior Faces, 4 Junior Airways, 12 Manikin Wipes and Directions for Use.

BASIC LIFE SUPPORT

CPR Premie, Cathy, Billy, & Timmy

Our CPR Pediatric manikins are air-filled, but can be filled with water to simulate the weight and feel of real children. Our manikins feature realistic chest rise, lifelike ribcage with sternum, xiphoid process, suprasternal notch, and painted nipples for accurate CPR hand placement. Adequate ventilations cause a realistic chest rise. The flow-through design of these manikins allows cleaning and sanitizing without disassembly. Provided with soft carry bag, clothing, and 12 disposable lungs. Manikins are available in basic models or with electronic monitoring console.

BPR-12

CPR Premie Infant Basic w/ Carry Bag

Sh. wt. 1.8 kgs.
Dimensions: 66 x 20 x 20 cm.

BPR-14

CPR Premie w/ Electronic Console Box w/ Carry Bag

Sh. wt. 2.25 kgs.
Dimensions: 66 x 20 x 20 cm.

BPP-09

CPR Cathy Newborn Basic w/ Carry Bag

Sh. wt. 2.25 kgs.
Dimensions: 66 x 20 x 20 cm.

BPP-11

CPR Cathy w/ Electronic Console Box w/ Carry Bag

Sh. Wt. 2.7 kgs.
Dimensions: 66 x 20 x 20 cm.

BPY-13

CPR Billy 6 to 9 Month Old Basic w/ Bag

Sh. wt. 2.7 kgs.
Dimensions: 66 x 20 x 20 cm.

BPY-15

CPR Billy w/ Electronic Console Box w/ Carry Bag

Sh. wt. 3.15 kgs.
Dimensions: 66 x 20 x 20 cm.

BCP-17

CPR Timmy 3 yr. Old Basic w/ Carry Bag

Sh. wt. 4.5 kgs.
Dimensions: 86 x 28 x 18 cm.

BCP-19
